ABOUT US

Founded in 2022, our mission is to introduce the world to the extraordinary scents of our homeland, particularly the globally revered frankincense and myrrh. Rooted in tradition and sustainability, we strive to bridge the gap between age-old practices and modern wellness demands.

Our team is dedicated to ethical sourcing and meticulous production, ensuring every product reflects the essence of Somalia's iconic aromatic treasures. From the *Boswellia* trees that yield our prized frankincense to the *Commiphora* species that produce myrrh and hagar resin, our offerings are a testament to nature's bounty and Somalia's artisanal craftsmanship. Somali Scents is more than a company; it is a movement to preserve and share Somalia's cultural and ecological legacy.
